Bugs! 3D

A Rainforest Adventure

Giant bugs attack Schenectady! You'll gasp. You'll cringe! You've never seen anything like this! GINORMOUS bugs on our Extreme Screen. Living! Fighting! Surviving! Bugs! is a live-action nature drama in awe inspiring, totally immersive 3D. With location work shot in Borneo, Bugs! 3D.

Forces of Nature

Volcanoes explode! Tornadoes twist! Earthquakes ROCK! Lose yourself in Forces of Nature, and experience the biggest, baddest depictions of nature's fury. This Extreme Screen movie from National Geographic follows scientists on pulse-pounding quests to discover how natural disasters are triggered—without getting caught up in their work!
