Seating partially retracted(8 rows) 244 + 4 wheelchair accessible spaces

Seating partially retracted(3 rows) 78 + 4 wheelchair accessible spaces

See seating addendum below.

DIRECTIONS(deliveries only)

Directions to loading doors: Rt. 890 to Broadway exit. Follow signs for Proctors.

At the first traffic light stay in the center lane and continue on Broadway. ½ block past Clinton Street turn right onto Stratton Plaza (pedestrian mall opposite the parking structure). Turn left onto Lamp Lane. GE Theatre loading doors are on the right and behind you ¾ down the alley. Please do not park person vehicles in the alley.

THEATRE ACCESS

The main loading area is accessed from the alley (Lamp Lane) through a set of double doors 5'9 x 6'6". The doors are at street level. It is a 45' roll through the loading/storage area to a roll up door, 8' x 10' into the performance space. This roll-up door opens into DSR near the rear of the seating area. This loading/storage area contains a slop sink and is often used as a prep space for catered events.

There are two single doors, one DSL and DSR located behind the seating area, at street level. These doors open directly onto Lamp Lane and are also used for emergency exits.

Access to the stage from the dressing rooms is via a double door that opens directly into the performance space. This door also serves as an emergency exit.

There is no completely masked performer crossover.

Performers may use the space behind the movie screen as a crossover, but only with advance permission. The crossover space is narrow and contains hazards.

There is also a crossover space downstage behind the seating area. It is approx. 6' x 56' and may also be used for temporary storage.

Due to access issues into the space once the performance has begun, we usually hold seats in the first row or two in the center seating section for VIP's. The front two rows HL are held for late seating (see GE Theatre Map).

Seating Addendum

Row A = 27

Rows B-H & J-N = 31

Row P = 35

Configurations

0 rows = 0

3 rows = 78

8 rows = 244

14 rows = 434

Addendum

Floor seating is possible with conference chairs. Add 31 seats.

Row A is missing 4 seats. 2 from each end. These can be filled with conference chairs.

All rows*are missing chair numbers 9/10 and 26/27 to make the aisles.

*except for row P which is a complete 35.

Chair numbering is from House Right to House left.

Rows are lettered A-H / J-N / P from floor to top row. There is no row I or O.
